

# Automotive Wire & Cable

[www.sycor.com](http://www.sycor.com)

## TXL Primary Wire - Extra Thin Wall

Type TXL thin wall automotive wire consists of a single, stranded, bare copper conductor with extra-thin wall XLPE insulation.

## SXL Primary Wire - Thin Wall

The SXL cables construction consists of a cross-linked polyethylene jacket, a higher heat tolerance, and is more resistant to abrasion and ageing.

## GXL Primary Wire - Thin Wall

Type GXL wire is excellent for automotive applications requiring high heat resistance and is suitable for use in temperatures from -51°C up to +125°C.

## SGT & SGX

Battery cables are most typically used to connect a battery to a car's electronic system and ground it. Battery cables generally are larger in gauge size and, therefore, an overall heavier product.

## Type GPT - Lighting & Primary

GPT/Primary automotive wire is the most common type of automotive wire, and as its name implies, it is able to fulfill most general purpose applications.

## Type HDT - Lighting & Primary (Heavy Wall)

Type HDT heavy-wall wire is designed for use in rigorous automotive applications that require high durability.

## Trailer Cable

The Trailers cables PVC jacket is resistant to abrasion, chemicals, gas, oil, and weather, making it ideal for these rugged automotive applications.

## Available Approvals

- SAE J-1128
- Ford MIL-50A
- Chrysler MS-3490

The Sycor team is stocked and ready to help with all of your automotive wiring needs. We carry everything you need for automotive applications, including primary automotive wire, motor wire, cross-linked automotive wire, speaker wire, battery cable, brake cable, and more. Our expansive selection is available in a variety of configurations. If you are unsure of which kind your application calls for, our sales team is always available and willing to help you with any questions you may have. Sycor Technology's signature value-added services, including striping and terminating, give you the resources to make your own solution unique to your application.

If you can't find the automotive wiring product you are looking for on our site, just give us a call! Our friendly and resourceful sales team is fully equipped with the tools and knowledge to help track down a product that will fit your outlined specifications.
